Short Description

PRYSMA Projection Clock with Weather Forecast - Black

Description

The clock projects the time and alarm directly onto the wall or ceiling. The time is radio controlled which is precise to the second and adjusts automatically to and from British Summertime, meaning you will never have to set the time again.

A dual alarm function allows you to set two alarms time on a single clock, one for you and one for your partner, and with a crescendo alarm with 8-minute snooze function and snooze touch technology you decide whether it's time to get up or perhaps have a little snooze especially on those cold and wet winter mornings!

Warm or cold, inside and out? The RMR223P PRYSMA Projection Clock also measures both indoor and outdoor temperature and includes a remote sensor to place outdoors, so you know how cold or warm it is

without even leaving your bed! The addition of a 12-24 hr weather forecast also lets you plan your day ahead, with the weather forecast clearly displayed by easy-to-read icons

Combining contrasting textures in a sleek slim-line modern design, with a unique red projection you will never have to fumble in the dark or switch the light on again.

Black Edition - Add touch of style to your home with new PRYSMA Series of multifunctional and innovative projection clocks!
