Short Description

Davis Replacement Rain Cone Kit

Description

Replace your old rain cone with our improved design offering greater accuracy in strong wind conditions.

This kit includes the rain cone with grip grooves and Davis logo, bird spikes, and debris screen.

Vantage Pro2 rain collector base required.

Compatible with all cabled and wireless Vantage Pro2 and stand-alone rain collectors, as well as all original Vantage Pro weather stations.

Brand	Davis Instruments
Contents	<p>This kit includes the redesigned rain cone with grip grooves and Davis logo, bird spikes, and a lock-in-place debris screen to keep it from falling off being blown out.</p> <p>The grip grooves make removing the cone easier. Bird spikes keep feathered friends from getting comfortable on your rain collector, and the improved debris screen keeps rain flowing through the collector without falling out.</p>
Explanation	<p>More Accuracy in High Winds</p> <p>Improved design is more accurate in strong winds. When your console says, “hold onto your hat” you’ll be getting the most accurate data with this cone! The new shape allows wind to flow around the cone, reducing turbulence and friction at the mouth of the collector. All new Vantage Pro2 weather stations now come with this improved rain collector!</p>
Ideal For	Amateur, Interested
Measurements	Rainfall
Power	Battery only
