

Davis Wind Vane 7906L (with Davis Logo) for Anemometers with D-shaped Shafts

Product Images

Short Description

Replacement wind vane with brass tip and logo for Vantage Pro2 anemometers with D-shaped shafts.

Description

This replacement wind vane for Vantage Pro2 stations includes a brass tip, the Davis logo, and is compatible with anemometers that have D-shaped vane shafts.

This replacement wind vane has a round receptacle that will only fit a D-shaped vane shaft. Please be sure to see the documents in the Resources section below, for compatibility with your station.
