

Mobile Alerts MA10350 Temperature and Humidity Sensor with Additional Water Detector

Product Images

Short Description

The MA10350 is a sensor for monitoring indoor and outdoor temperatures, humidity and water detection. This sensor is compatible with the Mobile Alerts monitoring system from TechnoLine.

Description

This temperature, humidity and water detector sensor is an additional sensor to the new home monitoring system from Technoline. The temperature and humidity sensor will detect the current temperature and levels of humidity within a office or building, the water detector will pick up any water leaks, mobile alerts will be sent accordingly to any changes regarding water, temperature or humidity.

Note: This sensor is produced to work with MOBILE-ALERTS system only. For using this sensor, MOBILE-ALERTS MA10000 gateway is requested.

Additional Information

Brand	Technoline
Explanation	Measuring range temperature: – 39.9°C to + 59.9°C Accuracy: +/- 1°C Measuring range humidity: 20% to 99% Accuracy: +/- 4% Measuring interval: 7 minutes Transmission range: 100m (open area) Cable length of probe: 1,5m
Compatibility	The MA10350 sensor is part of the new Mobile Alerts home monitoring system from Technoline. The Mobile Alerts System is compatible with both IOS and android devices.
Sensors	1 x MA10350
Dimensions	5.5 x 3 x 5.5 cm
Batteries	2 AA Batteries (included)
Power	Battery Only
