

Technoline WS7060 Multi-room Indoor/Outdoor Temperature & Humidity Station

Product Images

Short Description

Indoor and Outdoor Temperature and Humidity station from TechnoLine. Model WS 7060

Description

Know the temperature and humidity in three different rooms, plus outside your house.

This new temperature station from TechnoLine includes three separate temperature & humidity sensors, plus one built into the display unit – you could place one sensor outside and the rest in your family's bedrooms.

Key Features

- Indoor and outdoor temperature display (in the location of the display unit, plus three other locations)
- Indoor and outdoor humidity display (in the location of the display unit, plus three other locations)
- Programmable temperature alerts
- MIN/MAX recording
- Table standing.
