

Technoline WS 9132 Weather Forecast Station with Barometric Pressure & Frost Alert

Product Images

Short Description

The Technoline WS 9132 is a modern-styled wireless weather forecast station with radio-controlled clock, weather forecast and trend indicator based on air pressure change. Plus humidity and indoor & outdoor temperature (via the included wireless sensor). The handy frost alert will let you know if you need to allow extra time to scrape ice off the car!

Description

The WS9132 is an upgrade of the popular WS9130; the key improvements being the addition of barometric pressure, frost alert, and the ability to add up to two further wireless temperature sensors (great for monitoring childrens' bedroom temperatures). The design of the display console and wireless sensors has also been treated to a more modern look.

Technoline WS9132 Key Features

- Indoor and outdoor temperature in °C or °F
- Indoor humidity
- Weather forecast and tendency indicator
- Barometric (air) pressure
