Product Images

Short Description

Digital wall clock that shows the current time and displays the most relevant information at a glance. Sync with your phone via Bluetooth and Glance Clock reminds you about important meetings, weather forecast, fitness progress, arriving UBER and more. Integration with IFTTT provides hundreds of valuable integrations including Amazon Alexa.

Description

All the information you need. At a Glance

This minimalist timepiece displays information from all your calendars, smart home devices, third party applications and much more.

Sync with your phone via Bluetooth and Glance Clock reminds you about important meetings, weather

forecast, fitness progress, arriving *UBER and more. Integration with IFTTT provides hundreds of integrations including Amazon Alexa. (*UBER will be available later in 2019).

Alarm Clock and Timers

Glance Clock will wake you up in the morning. And it's even a great help in the kitchen with timers.

Calendar & Reminders

Connect your calendar and see the plan for your day in colourful pictures right on the clock face. Get reminders about meetings, events, and important dates (works with Google Calendar and Apple Calendar).

Weather

Animated widgets let you know the weather conditions and forecast from OpenWeather.

Health & Fitness

Shows daily achievements and day-to-day progress from fitness trackers. Works with Fitbit via IFTTT.com channel

Smart Home & Voice Control

See when a door is open or lights left on. Works with Amazon Alexa and smart home devices with IFTTT.com.

Incoming Call Alerts

Never miss another call from the people that matter to you!
