

Kestrel LiNK Wireless Dongle for Communication to PC/Mac - for 5000 Series

Product Images

Short Description

Wirelessly transfer data logs and update firmware via Bluetooth® low energy with this handy wireless USB dongle. The dongle cannot be used with AB profile loader, the USB data cable is required for profile transfer.

Description

Wirelessly transfer data logs from your Kestrel and update firmware with this handy wireless USB dongle and Kestrel LiNK software.

The LiNK Wireless Dongle for PC or Mac enables communication via Bluetooth Low Energy between any Kestrel 5 Series LiNK-enabled weather meter and a laptop or computer.

This versatile device is compatible with Windows and Mac operating systems and installs in any USB port. Its advanced communications capacity enables long-range data exchange with LiNK-enabled products. This dongle is small and lightweight, which makes it easy to transport.
