

National Geographic Projection Alarm Clock with Indoor & Outdoor Temperatures, plus Weather Forecast

Product Images

Short Description

A simple, modern design; this projection alarm clock is both easy to read and operate.

The large LCD screen displays the current time, day, weather forecast, indoor/outdoor temperature & trend. One external temperature sensor is included, to be placed outdoors or in another room, for example a child's bedroom. Up to two more sensors can be added.

Description

Key Features

- Time, date and weekday
- Indoor and outdoor temperature in °C or °F
- Temperature trend
- 12/24 hour time
- Weather forecast
- Dual alarm with snooze function
- 256 background colours (adjustable)

- Projection of time and outdoor temperature.

Note: There is a radio-controlled clock function, which works in Germany. In the UK, the time is set manually.
