National Geographic 9080500 Colour 5-in-1 Complete Weather Station with Weather & Ice Alerts

Product Images

Short Description

Out of Stock until late April 2024.

See our full range of home weather stations

The National Geographic 256-Colour 5-in-1 Wireless Weather Station combines a unique compact design with comprehensive information about your weather.

Description

Current and historical values are displayed on the large colour display of the base station. From the collected measured data, the weather station calculates a very reliable local weather trend forecast for the next 12 hours, shown on the display by six graphic symbols.

Don't be caught out by weather extremes: alerts can be programmed to notify you if minimum and maximum values are exceeded (outdoor temperature, rainfall etc). For outside temperatures from -3°C , a special frost/ice warning alert can also be activated.

Key Features

- 5-in-1 outdoor multi sensor
- Displays time, calendar, weekday and moon phase
- Inside temperature ($^{\circ}\text{C}/^{\circ}\text{F}$) and humidity
- Outside temperature ($^{\circ}\text{C}/^{\circ}\text{F}$) and humidity

- Wind direction and speed
- Graphical weather trend display (12 hours)
- Beaufort index (scale for the classification for wind speeds)
- Precipitation rate with history (day/week/month)
- Weather Forecast (12~24 hours)
- Air pressure with history (24 hours)
- Heat index
- Dew point
- Alarm with snooze function
- Weather alerts & selectable ice alert alarms
- Outdoor temperature alarm (frost warning)
- Min/max memory (up to 24 hours)
- LED background light, amber
- For peace of mind, after purchase, you can register online for a FREE 5 YEAR Extended Warranty.
