Product Images

Short Description

The ACCUR8 LoRa Weather Station model 1 provides instant access to site-specific data anywhere, anytime on your desktop or mobile device.

Description

Ideal if the area you need to monitor is spread over a number of miles; the ACCUR8 LoRa Weather Station Model 1 enables multiple endpoints (battery or solar-powered) to monitor, log and alert you in real-time. View your cloud-based environmental data dashboard anywhere, anytime on your desktop or mobile device.

This Multi I/O LoRaWAN enabled Weather Station can be combined with multiple wireless temperature/humidity/soil moisture/leaf wetness endpoint sensors, plus barometric pressure, rainfall, wind, with optional sensors for solar radiation, UV and air quality.

Choose from mobile network or ethernet connection.
