

Bresser 7002510 5-in-1 Complete Weather Station with Programmable Weather Alerts

Product Images

Short Description

Out of Stock until late April 2024.

See our full range of home weather stations

The Bresser 7002510 5-in-1 wireless weather station combines a unique compact design with comprehensive

information about your weather.

Description

Current and historical values are displayed on the large display of the base station. From the collected measured data, the weather station calculates a very reliable local weather trend forecast for the next 12 hours, depicted by six graphic symbols.

Don't be caught out by weather extremes: alarms can be programmed to notify you if minimum and maximum values (outdoor temperature, rainfall etc) are exceeded.

The compact, multifunctional outdoor sensor requires very little space.

For peace of mind, after purchase, you can register online for a FREE 5 YEAR Warranty.

Key Features

- 5-in-1 outdoor multi sensor
- Displays time, calendar, weekday and moon phase
- Inside temperature (°C/°F) and humidity
