

Bresser 7002580

Product Images

Short Description

View your weather on the colour display, mobile app or online! The Bresser 7002580 5-in-1 weather station combines a modern compact design with the ability to publish your weather conditions online via WiFi connection.

Description

The 5-in-1 outdoor sensor transmits measured values for wind speed, wind direction, humidity, temperature, and rainfall to the base station. Current and historical values are displayed on the colour display of the base

station. From the collected data, the weather station calculates a very reliable local weather trend forecast for the next 12 hours, depicted by six graphic symbols.

Don't be caught out by weather extremes: alerts can be programmed to notify you if minimum and maximum values (outdoor temperature, rainfall etc) are exceeded. There is also special frost / ice warning alert.

Bresser 5-in-1 Weather Station Key Features

- Connects to the Internet via your home WiFi
- You can publish your weather conditions to popular weather websites www.wunderground.com and/or Weathercloud.net
- View your live weather data on your Android or iOS mobile device with the Wunderground app
- The base station displays a wide range of measurements and historical data
- Indoor temperature (-5°C – 50°C) and humidity with comfort indication
- Outdoor temperature (-40°C – 60°C / -40°F – 140°F) and humidity (1 – 99%)
- Wind direction and speed (0 – 112 mph, 50 m/s, 180km/h, 97 knots)
- Rainfall (0 – 19999mm) with history (hourly, daily, weekly, monthly, total rainfall)
- Weather forecast (sunny, partly cloudy, cloudy, rainy, stormy, snowy)
- Barometric pressure in relative or absolute readings (hPa, inHg, mmHg) (540 – 1100hPa) (relative range: 930 – 1050hPa)
- Weather index ('feels like' function, dew point, heat index, wind chill factor)
- Moon phase
- Selectable ice/frost alert
- Programmable alarms for weather extremes: indoor temperature/indoor humidity/outdoor temperature/outdoor humidity/rainfall/wind speed
- Max/Min memory records and past 24 hours (hourly record)
- Time, calendar, weekday
- The clock always shows the correct time, as it automatically synchronises via the Internet
- Alarm clock with snooze function
- 3-mode display brightness: Hi / Lo / Off
- 7 languages for weekday (EN/ DE/ FR/ ES/ IT/ NL/ RU)
- Supports firmware updates
- Expandable: Monitor childrens' bedrooms/greenhouse etc with up to seven [wireless temperature and humidity sensors \(item no. BR-7009999\)](#)

Additional Information

Promotion	Limited stock. You may prefer the excellent ACCUR8 DWS5100 5-in-1 Solar-Powered WiFi Weather Station
Brand	Bresser
Contents	<ul style="list-style-type: none">• Indoor base station/display console with integrated stand• 5-in-1 multi-sensor suite with mounting materials• Short mounting pole• Power adaptor for base station/display console, with UK 3 pin plug and cable• User manual
Ideal For	Amateur, Interested, Gardeners
Dimensions	Display console: 168 x 143 x 24mm
Power	Display console: mains power, with optional battery backup (CR2032 battery (not included))
Sensors	<ul style="list-style-type: none">• The 5-in-1 outdoor sensor suite includes sensors for wind speed, wind direction, humidity, temperature and precipitation• Wireless transmission range to base station: 150 metres (line of sight)• RF frequency: 868 MHz
Dimensions	Outdoor sensor suite: 343 x 393 x 136mm
Power	Outdoor sensor suite: 3 x AA batteries (not included)
Installation	The compact, multifunctional outdoor sensor suite comes with a stand that can be mounted vertically or horizontally as well as a pipe clamp and screws so you can also attach it to a pole, such as is included with the optional Universal Mounting Pole Kit.

Additional Options

Add Optional Additional Temperature & Humidity Sensors

Wireless Temperature & Humidity Sensor (BR-7009999)

Batteries

3 x AA Alkaline 1.5V Batteries

Mounting Options

Universal Mounting Pole Kit (WS-7717) - Limited Offer

Universal Crank-shaped Mounting Pole Kit (WS-7715-CRANK)
