

TFA HORIZON 35.1155 Weather Forecast Station & Barometer

Product Images

Short Description

Just a quick look and you're immediately informed on your current living climate and the local weather. An integrated electronic barometer measures the air pressure and based on the changes, the weather symbol gives a forecast of the coming weather.

The bar chart on the display shows you the air pressure history of the last 12 hours and can therefore get a

more accurate picture of the weather development.

Also features two alarms with snooze function ensure that you get up on time.

Description

Key Features

- Absolute and relative atmospheric pressure
