## Additional Information

Brand	TFA Dostmann
Contents	Display Console 1 x Wireless Temperature Sensor (item number: TD-30-3241-02) User Manual
Explanation	<p>Rooms that are too humid favour mould growth, but air that is overly dry also damages our health. With the LIFE wireless weather station, you can keep an eye on the indoor temperature and humidity and control the room climate through targeted heating and ventilation.</p> <p>Up to two additional wireless temperature &amp; humidity transmitters can be connected as an option. The maximum and minimum values are saved and retrieved with a button. All buttons work with sensor touch operation. It is sufficient to just touch the sensor to activate it. The display light is also triggered this way.</p> <p><b>Temperature:</b></p> <ul style="list-style-type: none"><li>— Indoor temperature measurement ranges: -0°C to 50°C</li><li>— Outdoor temperature measurement ranges: -30°C to 70°C</li></ul> <p><b>Humidity:</b></p> <ul style="list-style-type: none"><li>— Indoor measurable range: 20 to 95%rH</li><li>— Outdoor measurable range: 20 to 95%rH</li></ul> <p><b>Remote Sensor:</b></p> <ul style="list-style-type: none"><li>— 433.92MHz RF transmitting frequency</li><li>— 60 metre transmission range in open area</li><li>— 3 channels selectable</li></ul>
