

TFA 30.3242 Temperature Sensor

Product Images

Short Description

Additional/replacement sensor for the TFA HORIZON 35.1155 Weather Forecast Station & Barometer.

For wireless transmission of temperature outdoors or in other areas of your house.

Includes a small LCD display which can be switched to show Fahrenheit or Celsius.

Description

You can add up to 2 additional 30.3242 sensors to your existing TFA HORIZON 35.1155 station.

- Temperature measurement range: -20 to +60 °C
- Wall mounting or table display
- 3 channels selectable
- Max transmission range: 60 metres in open area
- 433 MHz RF transmission frequency.

Please note that this sensor is weatherproof as opposed to waterproof and, as such, we recommend positioning it in a sheltered location if mounting outside. You should also take care to mount the unit in a location that is not exposed to direct sunlight in order to ensure a more accurate air temperature reading.
