

TFA Splashproof Bathroom/ Kitchen Clock with Timer, Plus Temperature & Humidity

Product Images

Short Description

- Display of temperature and humidity
- With timer function
- Suction cup for easy mounting on flat surfaces
- Splashproof

Description

When it comes to the morning shower or cooking, every minute counts. With this bathroom/ kitchen clock from TFA, you get not only the current time in view, but also a timer function. The timer can be set up to 99 minutes and covers everything from brushing your teeth to baking cakes. The passage of time can be observed on the circular graphic. The suction cup on the back ensures a secure hold to tiles, mirror or other flat surfaces – without drilling. Alternatively, this moisture-proof clock can be hanged to the wall with the hanging hole. The integrated thermo-hygrometer measures the room temperature and humidity, so you can always keep an eye on the indoor climate.
