

Hamster Cage Digital Thermometer

Product Images

Short Description

This digital thermometer is perfect for use in a hamster cage.

Description

Keeping your Hamster's cage the optimum temperature is essential to ensuring they remain comfortable and healthy.

It is recommended a hamster cage should be between 20 – 22°C. If the cage reaches below 15 °C, it can cause your furry friend to go into hibernation, which in captivity can be very dangerous for them.

As we draw into the winter months it is important you regularly check the temperature of your cage. With this digital thermometer you can easily do this by placing it next to the cage or even inside the cage (away from where your pet may be able to reach it).

It's easy to use with a large on/off button on the back and a hook, making it ideal for mounting onto a cage, especially one with wire on the top or sides.

Ranges

- Temperature range: -20°C to +50°C
- Resolution: 0.1 °C
- Accuracy: +/-1 °C
- Measure Units: °C or °F

Dimensions

- Complete: 67 × 14 × 0.9mm
- Weight: 31.65grams

Battery

- Type: 1 x CR2025 (Included)

Additional Information

Brand	TFA Dostmann
Timer	no
Temperature	yes
Cabled Probe	no
Calibration	Can Be Calibrated
Dew Point	no
Clip-On	no
Auto Switch Off	no
Freezing Zones	yes
Handheld	no
Water Resistant	no
Waterproof	no
Protective Case	no
Probe Temperature	no
Ideal Heating Temperature Indicator	no
Hold Function	no
Stopwatch	no
Size : Width	7cm
Size : Height	4.5cm
Size : Depth	2.5cm
Clock	no
Temperature Range	-20 to 50°C
Temperature Accuracy	+/- 1°C
Measuring Units	°C & °F
Power	Battery
Probe Type	no

HACCP Compliant	no
Warranty	1 Year
Min/Max Readings	no
Comfort Level Indicator	no
Min/Max Reset	no
