

My Time Wall Clock with Temperature & Humidity (25cm)

Product Images

Short Description

The Bresser mytime thermo-/hygro is more than a simple, classical wall clock. Thanks to the automatic setting via MSF time signal, you can always rely on the time shown. Additionally, the wall clock provides information about the room temperature and humidity.

If you want to hang it in your bedroom, you'll appreciate the silent sweeping second hand, with no tick-tock sound.
