

ACCUR8 A8-TX16 Temperature & Humidity Sensor

Product Images

Short Description

Replacement sensor for the A8-YD8266WUK-BL or A8-YD8266WUK-WH weather station.

Features an LCD screen that displays current temperature and humidity.

Description

- Temperature measurement range: -40 to +70 °C
- Humidity measurement range: 20 to 99%
- Wall mounting or table display
- 3 channels selectable
- Max transmission range: 50 metres (150 feet) in open area
- Water-resistant to IP44 rating (protected against rain and splashes).

Note: This sensor is for replacement purposes only. The ACCUR8YD8266WUK-BL and YD8266WUK-WH weather stations can only accept three A8-TX16 sensors.
