Description

Meteo weather centre with 4 day weather forecasting from DCF signal with local outdoor temperature.

Additional Information

Brand	Technoline
Contents	WM5012 console and batteries
Explanation	<p>This unit uses weather forecasts created by meteorologists at Meteotest in Bern, Switzerland, and broadcast alongside the DCF time signal. The unit displays the forecast for the region you select and updates on a rolling 24 hour basis. This unit gives 4 days of forecasts and is designed for use in the centre areas of the MeteoTime range. See the map above to see whether you are in a region which receives 2 or 4 day forecasts. If you live in the 2 day forecast areas you shall wish to purchase the WM5412 .</p>
