

# WeatherLink Integrated Pest Management Module for Grapes

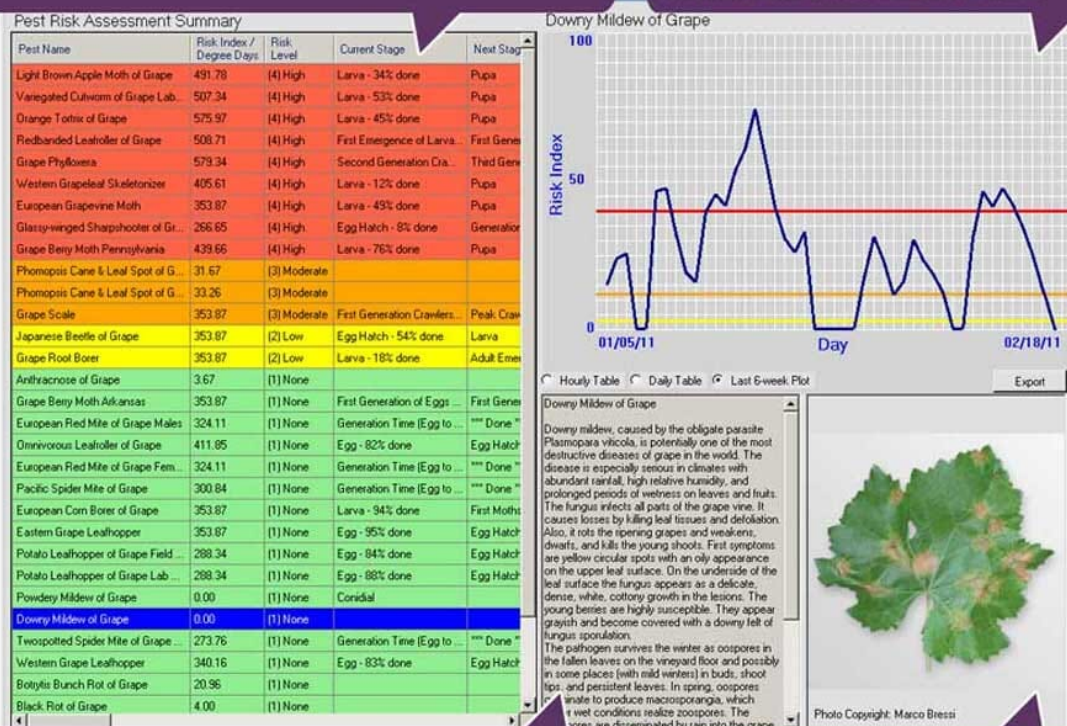

## Product Images

### RISK ASSESSMENT SUMMARY

Color coded to identify which pests currently pose a danger to grapes and sorted by severity level.

### DATA PANE

Displays a table of history for a particular pest or a graph of this data captured from the last six weeks.

### PEST DESCRIPTION PANE

Learn more about the pests that can potentially damage your crop.

### PEST IMAGE

Provides a picture of the pest to help you easily identify it when you are in the field.

## Short Description

---

Links your weather data to actual pest risk, a new tool in the battle against crop pest damage.

## Description

---

This add-on module works with WeatherLink for Windows and Vantage Pro2 to gather real-time temperature, humidity, rain and leaf wetness data. It generates stepped risk levels to warn you when conditions are favorable for pest development.
